Answer three questions to generate your manifesto.
```

```
-----
```

1. Name one open-source tool you use every day: vlc
2. In one word, what does 'freedom' mean to you? Accessibilty
3. Name one thing you would build and share freely: A decentralized education platform

I believe in vlc because it represents Accessibilty.
```

```
I promise to build A decentralized education platform and share it with the world.
